Calf Growth Record

Record each calf from birth to weaning. Write the date above each monthly weight.

FARM / RANCH _____ CALVING SEASON _____ UNIT: KG / LB _____ YEAR _____

Make sure every calf gets colostrum within the first few hours of birth.

Weigh monthly with a scale or weight tape. Calving ease: 1 = no help … 5 = vet/C-section.

Daily gain = (latest weight − birth weight) ÷ age in days.
