FREE PRINTABLE · NEWBORN WEIGHT TRACKER

Kitten Weight Tracker

Page 1: weigh every kitten every day for the first two weeks. Write the date under each day.

MOTHER'S NAME _____ BIRTH DATE _____ UNIT: G / OZ _____ LITTER SIZE _____

Weigh at the same time each day on a kitchen scale in grams.

Kittens usually weigh about 90–110 g at birth and gain about 10–15 g a day (around 100 g a week).

Call your vet if a kitten loses weight or stops gaining for a day.
